The price for your share is determined by the amount under the month that you have paid in full.

For every 50 families in our CSA, we can afford to give one CSA share to an individual or family who is in need of nutritious produce. The donated shares are intended to help individuals or families that have health related issues, coupled with financial difficulties. If you know of someone that could benefit from a donated share, please contact us with your recommendation. Everyone that purchases a CSA share will have a part in providing organic produce to someone in need.

These funds are non-refundable. We cannot guarantee each crop will be a success. In fact, some are undoubtedly going to fail or yield less while the majority thrive. We continue to add improvements every year to limit failures, but we cannot eliminate every potential problem.
